Crimes under globalization .. Variables and invariables

Shraif Talaat Al- Saaid

Abstract

The study is aiming to zoom in on the juvenile's delinquency so as to analyze the indications and reasons for the increasing and multifarious juveniles' crimes all over the world - including the Arabic and Islamic world - especially under the globalization phenomena with all its dimensions and consequences. The study aims to psychologically, socially and legally identify the juvenile's delinquency phenomena. We stop at Kuwaiti law as a prototype for Arabic and Gulf laws by having quick glance on it to know more about the legal dimensions for juveniles delinquency, come close to the crimes world to understand the criminal behavior and its motives, namely the psychological motives and also the economical and social motives for children crimes specially in Gulf societies.

The researcher has stopped on the globalization phenomena with all its dimensions and indications concentrating on the communicational, cultural and ideological dimensions. He analyses the international motives influence on increasing the crime in general and the juvenile's crime in particular. The globalization phenomena carries by itself many risks and challenges as it gives away chances and advantages to those who can masterfully deal with it. The study monitored the globalization reflection on the juveniles' behaviors and manners and its reflection on the increasing juvenile's crimes with the huge and rapid progress in communication and transportation technology which enables people all over the world to be in touch.

The researcher also steps at the rule of the family and the school, to monitor the reasons for the juveniles delinquency, and the rule of media and punishment & in habilitation foundations, how can these affect the juveniles delinquency, how to avoid its disadvantages, how to develop its strategy in dealing with children and teenagers to prevent them from falling into the world of crimes. The study concludes with the modern trends to fact the juvenile's delinquency phenomena and the instant and future solution for the juveniles delinquency.
